

Overcoming Boundaries

跨越边界

Symposium for the 30th anniversary
German-Chinese Academy for Psychotherapy e.V.
纪念德中心理治疗研究院成立30周年研讨会

Dominikanerkloster, Frankfurt am Main
July 3rd - 6th, 2026

“Overcoming Boundaries”

With this symposium for the 30th anniversary of the German Chinese Academy for Psychotherapy e.V., (DCAP) we are continuing our tradition of promoting intercultural

exchange between Chinese and German psychotherapists through conferences and symposia. Therefore, most topics at this symposium will be represented from Chinese and German psychotherapists to accommodate different perspectives

DCAP

German Chinese Academy for Psychotherapy e.V.

Since 1988 there has been an exceptional cooperation between German and Chinese psychiatrists and psychologists in the field of psychotherapy.

With the founding of the German Chinese Academy for psychotherapy e.V. in 1995/96, the cooperation was deepened.

The Chinese German training projects of various psychotherapy schools such as psychodynamic therapy, cognitive behaviour therapy, systemic therapy, hypnotherapy, and dialectic behavioral therapy, are in China known under “Zhong De

Ban”. These projects enjoy a high reputation in professional circles in China
